

NEA-NEW MEXICO | 2022 SUMMER LEADERS CONFERENCE

## Your Voice Has Power!

The NEA-NM Summer Leaders Conference presented an excellent opportunity to document current reflections by education professionals in New Mexico. Participants submitted voice recordings and the narratives captured to provide a glimpse into the lives, hopes, and dreams of New Mexico educators. The narrative project was done with the Las Cruces Lunch Action Buffet (LAB), "What Does Your Heart Beat For" canvas quilt project. With all that educators have experienced, it is important to create moments for celebration and reflection. This activity is designed to not only create a moment to celebrate and reflect on all that educators do but also to help promote an emotional and aspirational connection between participants.

Thank you to the education professionals who contributed to the conference activities. With your contributions, we can contribute to the archive and build stories that build power.
